

# PROJECT MANAGEMENT SKILLS

*Development And Best Practices Training Series*

## GREAT COURSES FOR BEGINNERS OR JUST AS A REFRESHER.

Primavera (P6) is a software tool that entities like the City of Fort Worth, United States Army Corps of Engineers, Trinity River Vision Authority, D/FW International Airport and Tarrant Regional Water District use for everyday business. This project training series will give participants hands-on training in planning, scheduling, management skills, best practices, reducing risk and other important real-world project management practices.
