

Discover *the Future of* GATEWAY PARK

FIND DETAILS ABOUT THE ENTIRE TRINITY RIVER VISION PROJECT AT TRINITYRIVERVISION.ORG

Gateway Park's revitalization is a major component of the Trinity River Vision. Restoring the park to its natural beauty is a key initiative, including the planting of over 80,000 native oak and pecan trees.

New, community-requested recreational amenities being added across its 1,000 acres will make Gateway one of the largest urban programmed parks in the nation. The resulting economic development will help connect Fort Worth's east & southeast neighborhoods to the Trinity River Corridor.

KEY TO GATEWAY PARK IMPROVEMENTS
